

PRESS RELEASE

EnCon Companies Senior Preconstruction Engineer Awarded LEED AP BD+C

Denver, CO (March 3, 2010) – The EnCon Companies is pleased to announce that Chad Van Kampen, PE, a Senior Preconstruction Engineer, has earned his Leadership in Energy and Environmental Design Accredited Professional designation for Building Design and Construction (LEED AP BD+C). The new LEED credential is awarded to professionals who have demonstrated advanced knowledge in green building practices and concepts while practicing in a specific field of interest.

An experienced professional engineer, Chad joined EnCon Companies in 2005, bringing expertise in the preconstruction phase of precast concrete construction. Chad explained, "Obtaining the LEED AP BD+C designation will allow EnCon to support architects, contractors, and owners in making cutting-edge green building construction decisions. This will enable us to truly partner with all our customers to better achieve the project's sustainability goals."

Green building practices and LEED are revolutionizing the construction industry. As the demand for high-performance, economical, durable, and affordable structures has increased, so has EnCon's commitment to green building programs.

About The EnCon Companies

The EnCon Companies are specialty contractors providing precast/prestressed concrete systems and services to all facets of the construction marketplace. In addition to the corporate offices and the design group, both headquartered in Denver, Colorado, EnCon Companies maintains nine manufacturing facilities nationwide. Recognized as one of the leading precast companies in the United States, EnCon is pioneering the use of the latest technology for the design and fabrication of precast structures.
