

# Engineered Precast Solutions

## Concrete Manufacturing, Delivery and Installation

EnCon Colorado, LLC is a division of the EnCon Companies. The EnCon Colorado, LLC plant in Denver provides single-point responsibility for product design, fabrication, delivery and installation. Started in 2007, EnCon Colorado, LLC provides a 45 acre facility for manufacturing bulb tees, tub sections and box girders, piers, caps, Hollow Core, stairs, deck panels, elevator shafts and stair shafts.

EnCon Colorado, LLC builds on the success and experience of the EnCon family of companies. The core services of EnCon Colorado, LLC offer the following advantages:

- PCI plant certification ensures consistent quality products
- Installation requirements are ideal for small footprint, infill sites, and zero lot line conditions.
- Factory fabrication permits faster construction over alternative systems, increasing project-site safety, and decreasing weather-related risks.

# EnCon Colorado, LLC Solutions
